## **DETAILED ACTION**

### **Preliminary Amendment**

1. The preliminary amendment filed on 7/18/2006 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Dooley, Jr. 2,796,201.

Dooley, Jr. discloses a sealer gun (col. 1, ll. 15-18), which comprises a trigger (26), a needle valve (45), and a valve seat (48), wherein the needle valve is moved backward by predetermined strokes by operating the trigger so as to form a gap between the valve seat and the needle valve, so that a sealer is spouted from the gap, and wherein the sealer gun further comprises a tapered portion (51) having a tapered end that is provided at a tip of the needle valve as seen in Figure 4, and a ball portion (46) to be brought into contact with or be separated from the valve seat which-that is provided at a back of the tapered portion, a controlling member (47).

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brugge et al. 2,754,839 and Kendt 1,347,383 disclose other types of gun.

Art Unit: 3754
